Cylinder locks in moisture-proof design
Coin locks
Digilocks
Mechanical combination lock
Ask for other locking systems

Accessories Number plates, plastic key rings, wristband for keys, padlocks, sloping top, additional interior fittings, top lockers, different kind of door finish

Details and options:

Single-wall doors with closed side profiles for greatest stability and anti-theft security.

Double-wall doors with insulation; sandwich construction with good sound absorption.

HPL = high pressure laminate (high-density solid core compact panel with decor).

New door opening limiter 90°: Made from special heavy-duty, plastic-coated stainless steel cable. Standard design for all steel and decor doors.

Door hinge of aluminum diecast/plastic for steel doors.

Door hinge of stainless steel for decor doors.

54° profile in the body: This innovative profile makes the locker even more stable and secure. Also, the interior can be cleaned and clothing can be removed more easily.

Easy height adjustment: Cambio's corrosion-free plastic feet can be height adjusted from the inside and from the outside.

SVL concept: Perforations that are located with the ventilation requirements in mind ensure the optimal flow of air.
